DESCRIPTION

Our plantation is located in the community of El Caño, Uvero Alto road, Macao; less than an hour from most hotels in the area. It presents 500 square meters of different plants, especially coffee and cocoa, besides tobacco, pineapple, sugarcane, papaya, plantains, and others.

The walk starts with a visit to the typical house, with the guide explaining how they live, a walk through the areas and how they prepare their meals in a firewood stove.

After this visit we continue with a walk inside the plantation, which by its nature, sunlight can barely penetrate. We then stop at coffee spot where your guide will indicate the whole roasting process and will offer tastings.

We will continue along the path of the plantation and reach to the stop of the demonstration of mamajuana.

Here you will learn which plants are used in the manufacture and the process of the preparation of mamajuana.

Continue thru the trail in the plantation and stop at the coconut oil preparation spot.

You will end your Chocafe plantation tour at our grocery store where we offer different organic products at very affordable prices.
